

Fire *in the* Field

Wildland Firefighter Training

BASIC WILDLAND FIREFIGHTER TRAINING

FIF100 

Quality Training | Anytime, Anywhere

What is FIF 100 DL?

- An **entry-level firefighter** training program (equivalent to NWCG I-100, S-190, and S-130 courses)
- Quality, in-depth instruction with **remote oversight** by an NWCG certified facilitator
- **Flexible, remote training** for rural firefighters, agency hires, and staff recertification
- Perfect for preparing all **first responders** to safely assist in wildland fire incidents

“ FIF 100 reduces time and expense for both students and trainers. ”

Engaging Materials | Optimized Learning

“ FIF 100 maintains integrity of crucial course content. ”

How is FIF 100 DL better than other distance learning programs?

Web-ROM program delivery

Combines the rich video capacity of CD-ROM with the network and database capabilities of the web to deliver a robust multimedia experience, regardless of Internet connection.

Preserves quality instruction

Quality, in-depth content and self-paced direction maintain interest, while interactive quizzes and study guide questions provide feedback as preparation for the final written exam.

Provides powerful tracking and accountability

Real time student tracking allows trainers to communicate with students and gauge learning.

Thorough Training | Consistent Results

“ FIF utilizes a powerful online database. ”

Real-Time Tracking & Communication

Provides assurance all students . . .

- Have completed the course assignments
- Are ready for the final exam
- Can safely respond to wildland fire incidents

A powerful database

Tracks all student interaction for trainers to monitor participation and provide answers to questions before initiating field exercises.

Allows trainers to create detailed reports showing student participation and comprehension levels as well as total time spent.

Exports student data into Excel for easy integration with current systems.

*Quality Training.
Optimized Learning.
Consistent Results.*
