

# Fire *in the* Field™

Wildland Firefighter Training

FIF100 DL

## What is FIF 100 DL?

### Three distance learning courses in one program

- An entry-level firefighter training program (equivalent to NWCG I-100, S-190, and S-130)
- Quality, in-depth instruction with remote oversight by an NWCG certified facilitator
- Anytime, anywhere learning for rural firefighters that greatly reduces travel time and expense
- Perfect for preparing all first responders to safely assist in wildland fire incidents
- Web-ROM technology: a program delivery method that combines rich video capacity of CD-ROM and web database capabilities to create a robust multimedia experience, regardless of internet connection

### A powerful database

Tracks student interaction for trainers to monitor participation and offer feedback prior to field exercises.

### Provides assurance all students have

- Completed the course assignments
- Are ready for the final exam
- Can safely respond to wildland fire incidents
